

---

## Introduction

Limitless.Kshop is a small business that specializes in selling merchandise products, such as albums, sweatshirts, caps on Instagram.

An e-commerce website would help manage the business and enable customers to purchase products online, since they use manual way to record, trace and handling customer data.

---

## Problem Statements

01. Poor communication
02. Manual way of recording, tracing, handling data

---

## Conclusion

### LIMITATIONS:

- Sample size
- Time constraints

### FUTURE WORKS:

- Improve payment gateway
- Improve customer service
- Create personalized product recommendation feature

---
